YOUR FUTURE HOME

On one of the pages of this catalog you may find just the ideal home for which you have been looking, and you will also learn how you can save by constructing it the Lewis-Built way.

Which house comes nearest to your idea of a home? Won't you write us your opinion of the house you like best and let us tell you more about it? We will gladly answer any question you may ask.

Complete organization, our own forests, saw mills, cutting and interior finishing mills and architects enable us to turn out these houses at a big saving and give better material and more artistic plans than you can secure from your local contractor.

You save time, work, worry and money and run no risk, for on page six of our catalog you can read the type of material we furnish and our guarantee. Also read our "$25.00 FOR A FLAW" offer.

Whatever information you desire regarding quick shipments or erection of your home, suggestions for decoration, painting and any of the various questions that arise when considering the building of a home, we will gladly answer.

Build now before the close of the European War sends the prices of building materials soaring.

Turn this letter over and write me on the back of it.

Yours very truly,

LEWIS MANUFACTURING COMPANY

R. B. Lawrence,
General Manager.
